Will you help redouble our efforts @ PLC2022?

Each year the Australian Land Conservation Alliance brings together a conference program showcasing the diverse people, places and practices that contribute to the conservation and health of land, water and sea.

PLC2022: Recover, Restore, Redouble is ALCA's 6th Industry-leading forum, hosted by NSW Biodiversity Conservation Trust in Sydney from 8-10 March 2022.

This year ALCA will run a hybrid event (digital and face to face conference), and pending sponsorship, are also exploring the potential for a hub and spoke model

(regional events enabling greater access to conference material across Australia during this covid-normal year).

We invite you to be part of the action alongside our network of partners unlocking sector potential and working together for positive action.

Private land conservation is more important than ever. Australia has experienced droughts, catastrophic bushfires, a global pandemic and significant social movements, revealing the intersect between social, financial and environmental systems. During this time of rapid change and disruption, we have been recovering, we've been restoring our land, water, culture and community, and with enabling platforms we have the opportunity to redouble our efforts.

Past and current strategic partners include:

Connect with your target audience @ PLC2022

Networking

Get in front of:

- Decision-makers who collectively manage over 3 million hectares and 3000 landholders
- Senior policy makers from all levels of government
- Multi-disciplinary and cross-sector land management professionals
- Students and early career practitioners

Thought Leadership

Hear from leading experts about:

- Landscape resilience, recovery and restoration
- Emerging environmental markets, the land sector and conservation
- Indigenous land management, farming and production
- People and communities moving the needle
- Investment, funding and finance
- Innovation, tools and practice
- Policy, Strategy & Vision

Connect

Elevate your brand:

- Engage with high-value stakeholders at your exhibition space
- Focused networking with a diverse group of potential partners
- Names, emails, organisation and position titles of opt-in delegates
- Exposure before, during and post-conference via digital marketing to 50,000 ALCA supporters

Audience snapshot

Cross sector delegates anticipate the ALCA conference knowing it is the national forum critical to the success of the conservation, restoration and environmental recovery sector.

700+ ticket sales including side events and workshops

120+ speakers

70+ organisations represented

90% would attend another PLC conference

PLC19 Delegate Feedback

“ALCA is fostering a national conversation about landscape scale conservation practices and mechanisms.”

“The PLC showcases the breadth of work in private conservation. It stimulates connections that result in new projects and partnerships delivering even greater impact.”

We are ALCA

Australian Land Conservation Alliance is a public company limited by guarantee.

It brings together the leaders of Australia's most important on-ground conservation organisations.

Each ALCA member organisation has a seat on the Board which is held by their CEO or a Senior Executive.

This builds not only cooperation and partnerships but also accountability and transparency at the most senior level across Australia's key on-ground conservation organisations.

SOUTH ENDEAVOR TRUST

ALCA members work across 3 million + square kilometres with more than 3000 landholders, 50,000 supporters and 650 staff, generating over \$250 million in annual turnover.
